

PLAY SYSTEM

PLAYSYSTEM RE0002

Swinging device - seat with handles and leg support, attached at the free end of the spring fixed in the ground. The spring and metal materials are made of powder-coated galvanized steel. Elements made of HDPE board, colored in full mass, which gives complete resistance to discoloration and UV radiation. Connecting elements, i.e. screws, etc. made of stainless steel. Play equipment must be installed on a safe surface.

PLAY SYSTEM

Technical data:

length:	107cm
width:	26 cm
height:	84 cm
height of the seat:	50 cm
free fall height:	50 cm
fall zone:	404 x 322 cm
safety standard:	EN 1176-1, EN 1176-6
number of users:	1
age range:	3-6.

Materials:

spring and metal materials made of powder-coated galvanized steel,
panels and seat made of HDPE sheet,
handles and leg rests made of polyamide plastic,

Security:

galvanized steel powder coated.

stainless steel.
