PLAYSYSTEM S2290

Seat made of LLDPE.

Poles with diameter $\varnothing 114 * 2.5\text{mm}$ made of stainless steel, horizontal beam with a diameter $80 \times 60 \times 4\text{mm}$ made of galvanized steel, powder coated. Connecting elements, i.e. screws, slings, chains made of stainless steel. The finishing elements may differ from presented in the visualization. Swing construction colors: silver, green. Age range: 5-14

PLAY SYSTEM

Technical data:

- length: 401 cm,
- width: 172 cm,
- height: 250 cm,
- free fall height: 125 cm,
- fall zone: 401x720cm.
- safety standards: PN-EN 1176-1; PN-EN 1176-2,

Materials:

Poles with diameter $\varnothing 114 * 2.5\text{mm}$ made of stainless steel, horizontal beam with a diameter $80 \times 60 \times 4\text{mm}$ made of galvanized steel, powder coated. Seat made of LLDPE,

Steel chain with a diameter of 6 mm, with a mesh having an internal dimension in one axis not bigger than 8 mm, according to PN-EN 1176,

Poles caps made of plastic.

Zabezpieczenia:

Beam: zinc-plated steel, chromated and powder-coated with polyester coating.

Poles: stainless steel,

Screws, slings, chains of stainless steel.
