

PLAY SYSTEM

PLAYSYSTEM S2420

Swing for four people from the age of 3 years. Rubber seats with green aluminum insert, placed on a movable structure. Support elements made of steel, triple anti-corrosion protected. The beam and poles of the swings are made of a tube with a diameter of Ø114 mm. The poles and the beam are finished with dome-shaped plastic plugs. The finishing elements may differ from presented in the visualization.

PLAY SYSTEM

Technical data:

- length: 310 cm
- width: 40 cm
- height: 80 cm
- free fall height: 120 cm
- fall zone: 610 x 310 cm
- safety standards EN 1176-1; EN 1176-6
- age range: 3-12 years

Materials:

- metal elements made of steel, triple protected against corrosion by hot dip galvanizing, chromating and powder coating with a polyester coating, ensuring high resistance to weather conditions, discoloration in UV rays,
- finishing elements (seats) rubber with an aluminum insert.

Security:

- Zinc-plated steel, chromated and powder-coated with a polyester coating.
- stainless steel screws.
